

Chuck Ellinger
At Large

1. **Are you in support of, or in opposition to, continuing funding for the Purchase of Development Rights program? Why do you support or oppose funding for this program?**

- Yes, my voting record as an At-Large Council member would indicate that I have been very supportive of PDR.

2. **Do you support or oppose tax breaks and/or other incentives for infill-redevelopment projects?**

- I think infill and redevelopment projects are extremely important. Lexington must grow up, not out. I would support tax incentives.

3. **Do you feel that a higher priority should be placed on addressing and solving the sanitary sewer, storm water and water quality problems in Fayette County before there is any further expansion of development beyond the current urban services area? Why or Why not?**

- Basic services, i.e. sanitary sewer, storm water, public safety, etc. are the most important part of government, and should be provided now as well as any further development.

4. **Fayette County agri-business and agri-tourism generate over \$3 billion dollars for the regional economy each year. Do you support these industries? If so, how will you promote agribusiness and agri-tourism if elected to office?**

- Yes. My voting record affirms this position. I will continue to promote agribusiness and agritourism if re-elected.

5. **Fayette County currently has enough vacant land within the urban services area to support nine years of residential growth. Will you propose to use this available land to provide affordable housing, accessible transportation, and amenities for our growing community? If so, how?**

- Affordable housing, public transportation, as well as all the other necessary basic services, such as public safety, storm water, and sanitary sewers, etc. the government provides, should be the most important part of government. The land currently in the urban service area should be used to provide these services.
